- **State-licensed, board-certified** physicians averaging 15 years of practice experience
- **More than 22 million** members
- **< 10 minutes average** wait time
- **NCQA certified/accredited** and follows URAC guidelines for quality care

It's cold and flu season again, and it seems like half your workforce has called in sick or requested time off for a doctor's appointment. With lost productivity — plus the cost of hiring temps to fill in while your employees recuperate or wait for hours in a doctor's waiting room — your business is losing money fast. Even if your employees wait until after work to seek care, the company's healthcare costs can skyrocket if they're using an urgent care center or ER for non-emergencies because their primary care doctor's office is closed.

Help employees skip the waiting room instead of skipping work. Provide quality care faster — anywhere, anytime — while you lower healthcare costs for your business. It's all possible when you give your employees the virtual care benefit of MDLIVE.

"Easy. Convenient. Cost-effective. It's a win-win for both employees and employers."

While not intended to replace a primary care doctor, MDLIVE gives your employees the added benefit of 24/7 patient-centric healthcare that works around their professional and personal schedules — so they miss fewer workdays and are less likely to use more costly urgent care centers or the ER for non-critical conditions.

Your life is 24/7. Now your doctor is too.

MDLIVE is a leading HIPAA and PHI-compliant virtual care solution that provides your employees with anytime access to board-certified doctors, and pediatricians, from where it's most convenient for them — home, office, or on the go. After registering, on average in under 10 minutes, they can have a virtual consult to diagnose non-emergency medical issues over the phone or through secure video on their computer, phone, or the MDLIVE mobile app. When a medical condition calls for a prescription, MDLIVE doctors can send an e-prescription straight to the patient's local pharmacy of choice (restrictions apply).

Medical conditions

- Acne
- Allergies
- Cold / Flu
- Constipation
- Cough
- Diarrhea
- Ear problems
- Fever
- Headache
- Insect bites
- Nausea / Vomiting
- Pink eye
- Rash

MDLIVEConnect

MDLIVE's WebRTC Video Solution

MDLIVEConnect enables doctors and patients to communicate without downloading third-party video applications.

- Better customer experience
- Decreased wait times
- Increased return visits and overall video usage
- Improved physician/patient engagement
- Ability to support WebRTC video use cases in hospital settings

Everybody wins

Easy. Convenient. Cost-effective. It's a win-win for both employees and employers. MDLIVE is transforming healthcare by providing virtual care services that benefit both employers and employees when offered as part of a company healthcare benefits package:

Lower healthcare costs – At just around \$45 per virtual consultation, MDLIVE is a low cost alternative to \$130 doctor visits, \$160 urgent care visits, and \$1,200 ER visits.

Decreased absenteeism and increased productivity – Employees no longer have to miss an entire morning, afternoon, or day of work, to see a doctor for a routine illness.

Healthy body and mind - MDLIVE makes life easier for your employees and saves your business and employees money, resulting in a healthier, happier workforce.

How much can your company save?

ER Visit	\$1,200
MDLIVE	\$45 \$1,155 Savings
Specialist	\$190
MDLIVE	\$45 \$145 Savings
Urgent Care	\$160
MDLIVE	\$45 \$115 Savings
PCP Visit	\$130
MDLIVE	\$45 \$85 Savings

All-New MDLIVE Mobile App 4.0

Makes connecting with a doctor fast, easy, and convenient—from anywhere.

- Completely redesigned user interface
- Native iOS / Android navigation
- Compatible with video platforms

MDLIVE marketing support

Great doctors. Great results. MDLIVE will help ensure that your employees understand the concept of virtual care, when and how to use MDLIVE, and the value of this benefit to themselves and their families. To help you maximize awareness and utilization, MDLIVE supports employers and their employees with:

- MDLIVE engagement materials on how to use MDLIVE and promote the value of virtual care services. Customize materials with your company logo, company specific URL, and phone number. We provide marketing support in all formats and mediums, including flyers, posters, blogs, articles, digital banners, content blocks, how-to videos, and more.
- Ongoing content in various mediums to support educational campaigns to sustain employee awareness of MDLIVE and healthy living.

Give the benefit of MDLIVE

Everyone should have a virtual care doctor. MDLIVE delivers on this promise in an employee benefit that your staff will use, appreciate, and recommend to their peers. Virtual care is good for your employees' peace of mind – and good for your business, as it helps you avoid exorbitant and unnecessary urgent care and ER charges. Contact us today to learn how you can enhance the value of your healthcare benefits package with MDLIVE.
